

**Congress May Readjust the Liquor Laws.**

Judge Morrow advocates a change in the criminal procedure of the federal courts. The California judge advocates making the offense of selling liquor to an Indian a misdemeanor. As it now stands the offense is a felony and all of the cases which come up in the state of Arizona have to come before the United States district court for disposition. This term of court is the best evidence as to the cumbersomeness of the present plan. The docket is heavier than ever before and the greater proportion of the cases before the court are for selling liquor to Indians.

The court, when asked this morning, if it were not possible under the present laws, to deal with the Indian in the same fashion as the seller of the liquor, aside the matter had been brought to the circuit court of appeals from Alaska, and it was found that the Indian, under the present laws, could not be held for buying liquor.

A way out of the matter would be to let the United States commissioners handle the liquor cases in exactly the same manner as do the justices of the peace in the state courts. The commissioner could sit in misdemeanor cases and receive pleas from offenders and even conduct a trial jury of the offenders. This would eliminate the tendency of the Indians to secure a vacation in Phoenix at the time of the federal court by inducing some ignorant person to sell them liquor, by appearing before the federal court as witnesses. If these cases could be tried and disposed of by commissioners, ground for a vacation at the expense of the government and of some unfortunate would be done away with.

Since coming to Phoenix Judge Morrow has looked very carefully into the matter. He was astonished at the number of cases of this character on the docket. Accordingly the court wrote to the Attorney General of the United States, explaining in detail the needs of the Southwest in this regard. It will be necessary for congress to take action and change the statute before any change in the procedure can be made but the officials of the court are hoping it will be changed as soon as possible, and thus lift a burden from the shoulder of Uncle Sam and at the same time free the United States court of police court matters.—Arizona Democrat.

**Florence Will Use Jumbo Extension Mill.**

The Florence Goldfield Mining Co. has entered into an agreement with the Jumbo Extension Co. by the terms of which ten of the stamps of the Bonnie Clare mill, now operated by the Jumbo Extension, together with the tube mill and cyanide plant, will be used by the Florence company to treat its ore. This will be of decided advantage to both the companies involved, as it will afford the Florence an immediate market for a large tonnage of mill ore that is already broken and stored in old workings of the mine and the arrangement is expected to yield a sufficient revenue to the Jumbo Extension to offset its cash outlay for the remodeling and additional equipment of the mill.

President A. D. Parker is quoted as saying that the long awaited report of W. H. Wiley advises that certain development work be conducted on the upper levels of the mine, but discourages further work at depth and does not hold forth any substantial hope of finding pay ore on the deep levels.

J. K. Turner, the Goldfield mining engineer, has been made a director of the Florence company, as he represents the large stock interests in this company of Jas. F. Burns the Colorado mining millionaire and his associates, who, it is understood, have insisted upon having a representative who could look after their interests and report upon progress and conditions on the property.—New York Mining Age.

**Constipation Cured.**

Dr. King's New Life Pills will relieve constipation promptly and get your bowels in healthy condition again. John Supsic, of Sanbury, Pa., says: "They are the best pills I ever used, and I advise everyone to use them for constipation, indigestion and liver complaint." Will help you. Price 25c. Recommended by H. H. Watkins.

**Plan to Start Work on Silver Lead Property.**

The latest important lead-silver development under consideration in the district involves the bringing together of about twenty claims extending from the Higgins and the Copper Queen mines. These are owned by Martin O'Hare, L. J. Overlock, Mr. Rambeau, Johnnie Martin, now of Colorado, but formerly of this district, and others. Mr. O'Hare acquired the lead-silver fever following the Higgins deal and to bring about the consideration of the properties indicated above and get them under development and production has been the principal object of his visit in the district from Los Angeles during the last three weeks.

Surface showings on these properties are promising. There has been but little actual work. A tunnel in about 60 feet, and a shallow shaft on the O'Hare claims, are probably the most extensive workings on the ledge. In these, however, lead-silver ore running 200 ounces in the latter metal is extant. It is believed that a comparatively small amount of development work would put the properties in shape to begin shipping. Present intention is to form a small stock company following preliminary work that can readily be carried out with the capital of a close corporation comprised of the claim owners.

The starting of this enterprise will mean the spread of activity on up Tombstone canyon in the pursuit of values that may be attained with modest development expense. Not only in this direction, however, is new interest awakening in the development of outlying claims in the hands of individual owners. The movement is general and the optimism of those with small holdings in the district leading up to the result getting point via the development road. Much that is new along these lines may be looked for before the end of the year.—Bisbee Review.

**Fourth Class Postmaster Examination.**

Saturday, May 10, 1913.

The United States Civil Service Commission announces that on the date named above an examination will be held at Kingman, Arizona, as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth class postmaster of class (a) at Goldroad, and other vacancies as they may occur at that office, unless it shall be decided in the interests of the service to fill the vacancy by reinstatement. The compensation of the postmaster at this office was 741\$ for the last fiscal year.

Age limit 21 years and over on the date of the examination, with the exception that in a state where women are declared by statute to be of full age for all purposes at 18 years, women 18 years of age on the date of the examination will be admitted.

Applicants must reside within the territory supplied by the postoffice for which the examination is announced.

The examination is open to all citizens of the United States who can comply with the requirements.

Application forms and full information concerning the requirements of the examination can be secured from the postmaster at Goldroad and Kingman, or from the U. S. Civil Service Commission, Washington, D. C.

Applications should be properly executed and filed with the Commission at Washington at least 7 days before the date of the examination, otherwise it may be impracticable to examine the applicants.

U. S. CIVIL SERVICE COMMISSION.

**Million Dollar Depot for Los Angeles.**

Work on the new 1,000,000\$ terminal passenger station of the Southern Pacific for the city of Los Angeles is now under way, according to a bulletin received by the local officials of the Southern Pacific system. The plans for the huge station are practically completed and the old buildings have been sold and are being moved away. The work will be rushed on the new terminal, but owing to the fact that it will be built under traffic the work will be slower than otherwise.

The station will be a model of terminal and railway construction, every effort being made to make it the most complete in the United States and second to none, except that of the New

York Central lines in New York City. The type of architecture to be followed is classic, and the general line will be followed throughout the construction. The station will occupy with the yards, fifteen acres in the center of the city of Los Angeles. The station building proper will be 100 feet by 600 feet. There will be ample waiting room space in the building and a novel idea has been introduced in an automobile and carriage drive into the station. This will enable people coming into the station in carriages to escape the rain and weather.

Entrance and exit from and to all trains will be made by way of a subway, with easy inclines. A completely equipped dining room and lunch room will be installed and will accommodate the best of the travel. The building will be equipped with a view to the comfort of the passengers. The railroad officials expect to see one of the best and most complete stations in the country when the Los Angeles terminal is completed.—Phoenix Democrat.

**Means Foreigners Go.**

The following statement of affairs in Sonora is from the Douglas Dispatch:

Following a conference held in Agua Prieta at which were gathered representatives of the constitutionalist cause from throughout Sonora active measures were put on foot to throw down the gauntlet to all American and foreign corporations doing business in the state, should they directly or indirectly aid or abet the Huerta government by rendering them aid or assistance or committing any act or acts which might be construed as unfriendly to the constitutionalists.

According to Lic Rafael J. Castro, of Cananea, who is now engaged with others in an effort to solve the Sonora problem, at the meeting held across the line participated in by himself, G. Padrez and others, a telegram was sent to Governor Ignacio Pesqueira petitioning him as the chief executive of the state to aid and assist the state forces and secure the passage of straight law making it a felony for foreigners to assist the Huerta government by the closing of the places of business or the shutting down wholly or in part any work now in operation.

He stated that the constitutional forces have been and are still willing to guarantee every possible protection to foreigners and foreign property within territory under their control, but that the telegram was sent to the governor to secure the reopening of railroads, banks and mines in the immediate future and that the refusal of any companies to comply with the demand would be taken in an effort to cooperate with the Huerta forces to the detriment of the constitutionalists and that such refusal would be sufficient cause to withdraw all guaranties of personal or property protection and result in the confiscation of the property of any such companies in the country to the south.

He also stated that any cessation of operations would be taken as indication of an attempt to assist the Diaz faction and that they would be held responsible for such an act.

The proposed law has been forwarded to General Venustiano Carranza in Coahuila, for his formal sanction, as Carranza is the recognized head of the constitutionalists.

By asking the governor for aid, the state forces see a way in this manner to free themselves of all blame should ever acts take place which might result in the confiscation or destruction of foreign property.

The petition to enact the new law prohibiting foreigners from curtailing their operations in the republic comes as a result of the Southern Pacific having refused to pass rolling stock to the Mexican side of the line, the closing of every banking institution in the city of Hermosillo and the action of the Cananea Consolidated Copper company in putting into operation a policy of retrenchment at their plant in Cananea.

The state officials state that they see in this move as well as the withdrawal of all banking interests in the state capital, a direct move to aid the Huerta government. Should other companies follow suit with the Southern Pacific and the Cananea company the result will be an entire paralysis of the business throughout the state and the bringing on of an inevitable famine, which can only result in bread riots, pillage and loot.

Apache county, Arizona, is going to vote 25,000\$ worth of bonds for road construction throughout the county.

**Mining Engineer Receives Stab Wound.**

Rodney Williams, a mining expert from Bisbee was stabbed by John C. Bullard, at the Bullard mine in Cunningham Pass near Wenden at about 9 A. M. on the 15th inst. Mr. Williams was stabbed twice over the heart and once in the abdomen, and is in a serious condition.

Mr. Williams had been sent by Bisbee capitalists to inspect, with a view of purchasing the Bullard mine, and the deal was about to be closed at 25,000,00\$ per claim, there being four claims, 25,000,00\$ was to be paid down and the balance was to be paid in three payments, when a disagreement arose in regard to the time of the last payment, Mr. Bullard demanding that the last payment be made in eighteen months and Mr. Williams insisting on two years time. Mr. Williams emptied his sack of samples saying he had no further use for them, as his company would not entertain the idea of the last payment being made in eighteen months, as they considered it would take two years time to develop the property satisfactorily.

The two men had been together several days and are said to have had a dispute also, in regard to payment of traveling expenses.

Mr. Williams was taken to the hospital at Phoenix and Mr. Bullard, who is an old resident of Congress Junction went to Wenden to give himself up, and after waiting around town for two days was placed under 50,00\$ bonds to appear before the next term of court.

The Bullard mine has been shipping for the past seven months and up to date has shipped 17 cars of ore, that averages about 16 per cent copper and 30.00\$ gold per ton.—Phoenix Republican.

**This Interests Every Woman**

A family doctor said recently that women come to him thinking that they have female trouble, but when he treats them for their kidneys and bladder, they soon recover. This is worth knowing, and also that Foley Kidney Pills are the best and safest medicine at such times. You cannot get better purer medicine for backache, weary dragged out feeling, aching joints, irregular kidney and bladder action and nervousness due to kidney troubles. Try them. They are tonic in action, quick in results. H. H. Watkins, Druggist.

**Annual Stockholders' Meeting.**

Notice is hereby given that the annual meeting of the stockholders of the CARTER GOLD MINING AND MILLING COMPANY will be held at the office of the company (Arizona Central Bank) in Kingman, Arizona, on Monday, the fifth day of May, 1913, at the hour of 7 p. m., for the purpose of the election of Directors for the ensuing year, and for the transaction of such other business as may properly come before the meeting.

Dated at Kingman, Ariz., April 17, 1913  
W. K. RIDENOUR,  
Secretary.

**Wanted**

First-class Salesman to represent the Northwestern Mutual Life Insurance Co. of Milwaukee, Wis. Assets 300 Million, largest dividend payer and lowest net cost—for Kingman and Mohave County. Full manager's contract to the right man. For particulars apply to  
TH. VON ROLF,  
3 and 4 O'Neal Bldg.,  
Phoenix, Arizona

**Doctors Use This for Eczema**

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. We have been prescribing the D.D.D. remedy for years."

We, ourselves vouch for the D.D.D.

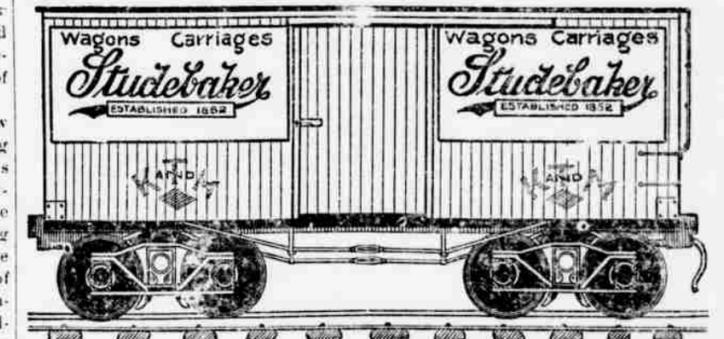

Prescription for eczema and absolutely guarantee that it will take away the itch the instant you apply it.

If you are suffering from any form of skin trouble we would like to have you come to our store, for we have had the agency of this remedy for so many years that we can tell you all about D.D.D. Prescription and how it cures eczema. In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a \$1 bottle on our guarantee that it will cost you nothing unless you find that it does the work. For that matter a trial bottle for 25c ought to be enough to absolutely prove the merits of the remedy.

Drop into our store anyway and we will tell you all about this great remedy.
